 Canadian Citizen (Full UK Work Rights)

AI Video Ads & Marketing

Creating high-converting video ads and social content.

-  **Ad Creation:** HeyGen avatars + Stock footage for 30s commercials.
-  **Visual Effects:** AI Editing to auto-remove silence & add dynamic captions.
-  **Voiceovers:** ElevenLabs emotional voice cloning.
-  **Hook Optimization:** A/B testing video intros generated by AI.

Storytelling & Scripting

Choosing the "Perfect Words" using advanced LLM prompting.

-  **Persuasive Copy:** Using Claude 3/GPT-4 for emotional sales copy.

- 📄 **Story Arcs:** Structuring brand narratives via AI frameworks.
- 🗨️ **Tone Transfer:** Rewriting technical manuals into engaging content.
- ✓ **Semantic Refinement:** Optimizing scripts for maximum impact.

SEO & Engine Optimization

Ranking content by leveraging AI for data-driven insights.

- 📈 **Keyword Research:** Using Perplexity agents to find low-competition gaps.
- 🗣️ **Semantic SEO:** Optimizing articles for NLP algorithms (Google SGE).
- 📄 **Meta Automation:** Bulk generating optimized Titles/Descriptions via n8n.
- 👤 **Structure:** Building topical authority maps using AI clustering.

n8n Workflow Automation

Connecting apps to build "Self-Driving" business systems.

- 📧 **Auto-Responder:** Lead comes in -> AI Drafts Reply -> Sent.
- 🔄 **CRM Sync:** Connecting Webhooks to Google Sheets/HubSpot.
- 🔗 **Custom Logic:** Writing Python glue-code to bridge APIs.
- 🔧 **Troubleshooting:** Debugging broken JSON payloads.

Generative Art & Visuals

Visualizing concepts with high-fidelity AI imagery.

-  **Midjourney V6:** Photorealistic product mockups & creative assets.
-  **Prompt Engineering:** Expert control over lighting, composition, and style.
-  **Consistent Characters:** Keeping brand mascots consistent.

Infrastructure & Forensics

15+ Years of bedrock reliability and security.

-  **Digital Forensics:** Traffic tracing, incident investigation & data recovery.
-  **Admin:** RedHat/CentOS, Ubuntu Server, cPanel/WHM.
-  **Security:** Server hardening, Firewalls, SSH Key management.
-  **Scripting:** Bash automation for backups and logs.
